

Smoke Effects Devices: E-Match/Wire-Pull

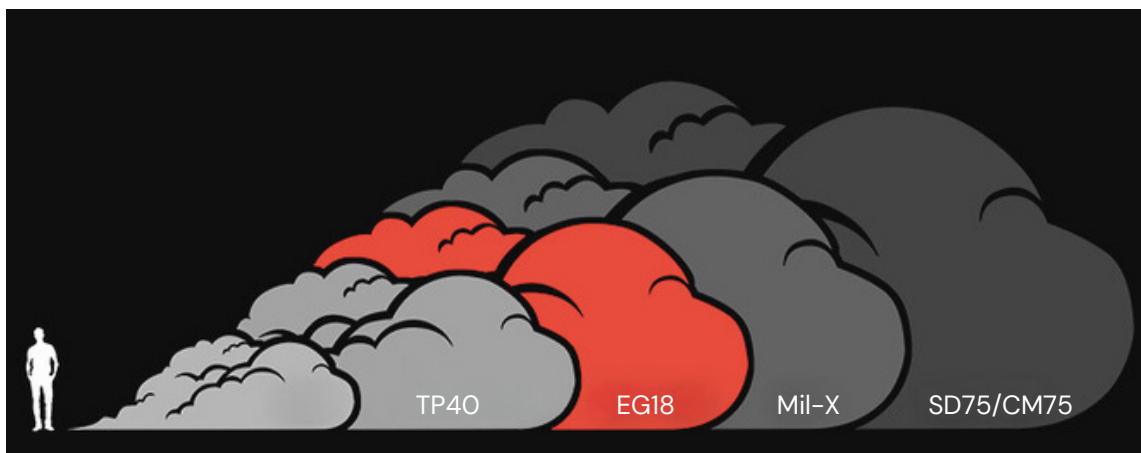

OPCON Smoke Effects are designed to be fired with the SIM-SMK Wireless Smoke Simulation Initiator.

All devices produce dense clouds of various sizes (model dependent) and come in a wide variety of colors. Each device is 99.5% biodegradable and do not produce any flame.

OPCON smoke simulation is ideal for Military, Firefighter, and Law Enforcement training.

Smoke Effect Product	Initiation	Duration (apx)	Coverage
TP40	E-match	30 Sec	10,000 cu/ft
EG18	E-match	90 Sec	70,000 cu/ft
SD57	E-match	90 Sec	310,000 cu/ft
CM75	E-match	150 Sec	290,000 cu/ft
Mil-X	Pin & Spoon	45 Sec	90,000 cu/ft

Flash Effect Product	Initiation	Fuse Time (apx)	Decibel (At 10m)
Flash 3.0	Wire Pull	5 Sec	120dB
